

Outside Safety Game-

This game was created to teach outside safety rules. Each visual card has Velcro on the back and each column has the other side of Velcro. Children are given a card and say what is happening in the picture and choose if the activity is a safe or unsafe choice.

Outside Clean Up Choice Board-

This visual was created to assist a child in cleaning up after outside time. Each visual card has Velcro on the back as well as the pointer finger. The child moves the finger to make their choice and then places the card under the “first” square which has Velcro as well.
